

# A320 North of Woking

## Construction Phase Newsletter

Issue 3

May 2026

Dear Resident

Welcome to the third edition of our newsletter for the A320 North of Woking Improvements Scheme.

In this edition, we provide an update on the ongoing closure of Holloway Hill and Hardwick Lane, progress to date, and what to expect next.

Over the course of the project, we aim to keep the community updated on our site progress and informed on upcoming works.

### Site Works Update:

Since the road closed on April 14<sup>th</sup> Works have been progressing well under the closure of Holloway Hill and Hardwick Lane.

Pedestrian access during the closure has also been established and we endeavour to maintain this throughout the works.

Some of the main activities undertaken and ongoing include:

- Site clearance,
- Installation of drainage,
- Excavating the attenuation pond,
- Identifying underground utilities,
- Installation of the road foundation.

Closing the road for approximately 6 months was and remains the only option to carry out the job at hand; completely re-aligning the bottom of Holloway Hill to form part of a new roundabout in the adjacent field.

Discussions around alternative traffic management measures included our team, Surrey Highways and our client Surrey County Council. While recognising that a six-month closure will be inconvenient for local people, it was felt to be the best balance of time, safety and enabling some major engineering works.

### What's next?

The GRAHAM team will proceed with works on Holloway Hill and work in tandem with external utility companies who will be carrying out their own service diversions onsite. These include:

- BT,
- Cadent Gas,
- Virgin Media,
- UK Power Networks,
- OCU Group,
- Zayo communications.

The above companies require full width excavations of the existing road surface to carry out their works, further highlighting the necessity of fully closing the road.

## Local MP Visit

Following the closure of Holloway Hill, the site were pleased to welcome Dr Ben Spencer MP onsite, along with representatives from Salesian School, to discuss the impact of our works on the local community.

We appreciate the patience and support of local residents during this period and are committed to completing the works as safely and efficiently as possible.

## Considerate Constructors Scheme

This site is registered under the Considerate Constructors Scheme (CCS) and as Partner, GRAHAM is committed to improving the image of the construction industry by striving to promote and achieve best practice of all its sites.

## FAQ

Please follow the below link to be redirected to a recently published FAQ page by Surrey County Council, including information about the wider A320 scheme.
