Our Ref: TA24 L40
Your Ref: St Peters Way Roundabout Traffic Signals

04 August 2026

For the attention of the homeowner or occupier

Dear Neighbour

St Peters Way Roundabout Traffic Signals

We are pleased to inform you that our works on the St Peters Way Roundabout are nearing completion, and we are preparing to turn on the traffic lights on the roundabout following a recent test. Please take caution when using the junction as drivers adjust to the new road layout.

Over the next few days, we expect our team will turn on the traffic signals at the roundabout and will be removing some of the traffic management around the roundabout itself. Please note, a lane will remain closed on the St Peters Way eastbound carriageway due to works in the central reservation towards the M25. We may need to re-install some traffic management in the future to carry out further works.

Once they have been switched on, the traffic signals will be operational at all hours of the day, unlike the previous lights that were operational at peak hours only, this is due to the new larger capacity of the roundabout.

We would like to thank you for your patience over the last year whilst we have been carrying out these works, and for your ongoing understanding whilst we continue to carry out the remainder of the A320 North of Woking Improvements Scheme.

Keep in touch

If you would like more information about the improvements to the A320 between Ottershaw and Chertsey:
